When we imported "TomTom" from New Zealand never in our wildest dreams did we imagine the tremendous impact this beautiful wonderful boy would have on the breed, in this country and around the world on several continents. He has proven himself to be one of the most influential sires of our times, by consistently stamping his quality on his Get, and down through the lines generation after generation. His Get have gone on to be the top winning in various countries, as well as top champion producers.

"We want to warmly thank all the wonderful breeders who chose our beautiful boy, many of which came back to him multiple times. We would also like to extend a thank you to the judges and breeder/judges world-wide who recognized his fine qualities. We continue to look forward to seeing his beautiful and promising get, and get generations out, in the show ring, field and service field for years to come. There is no denying he has left an incredible legacy."
